In training to become a full-stack developer, with several years of experience in technical support. I'm currently building a web platform at Irori Security and I'm used to working under time pressure and performing under it.

/ experience

Internship 2 (LIA), developer · Irori Security — 2026-08 – ongoing

- Building a web platform for Yokoten, internal presentations where employees share knowledge with each other.
- You can apply to give a presentation, admins approve it and book a date, and everyone else can sign up to attend.

Internship 1 (LIA), developer · Irori Security — 2025-10 – 2026-01

- Created an internal website for project ideas.

Tech: Azure Functions, Static Web Apps, Cosmos DB, MSAL, Bicep, C#, TypeScript

Technical Support Specialist · Qbtech AB — 2021-11 – 2023-08

- Managed the company's European customer support on my own.
- Answered tickets by email and phone and made my own decisions on level 1 and 2 tickets.
- Created an inventory management process.
- Helped plan the US office expansion according to ISO/NCR requirements.
- Gave customer feedback to the product and engineering teams.
- Contributed to external audits and improved internal processes.

Technical Support · Teleperformance — 2020-01 – 2021-11

- Phone and chat support in a business-to-customer environment.
- Handled several cases at the same time, sometimes up to 3 chats at once.
- Customer satisfaction above 90% across thousands of issues.
- Promoted twice, first to a specialist role and then to a dedicated chat team.
- Worked to strict SLAs and GDPR requirements.

/ education

Full-stack developer · Företagsuniversitetet — 2024-08 – ongoing

Technology and civil engineering · Fredrika Bremergymnasiet — 2015-08 – 2018-06

/ projects

The Yokoten platform

A web platform for applying for, approving and booking Yokoten, internal presentations where employees share knowledge.

Java, Spring Boot, React, TypeScript, Cosmos DB, Azure, Bicep, Claude Code

Portfolio website

My portfolio with a terminal theme and support for Swedish and English.

TypeScript, React, Vite, CSS, Claude Code
